- Dexter Kennedy, organ

Sunday, February 13, 4pm

2022 marks the 200th anniversary of the birth of the Belgian-French composer César Franck, whose organ works arguably represent the most important contribution to the organ repertoire other than J.S. Bach, and charted the course for the entire French Romantic organ school. Dexter Kennedy is presenting Franck's complete organ works throughout the United States during this anniversary year. Part I is played on the Casavant of Trinity-by-the-Cove, and Part II on the Lively-Fulcher organ of Vanderbilt Presbyterian Church, February 27, 2:00pm

## New York Polyphony

Sunday, March 27, 4pm

Praised for a "rich, natural sound that's larger and more complex than the sum of its parts," (NPR) New York Polyphony is one of the foremost vocal chamber ensembles active today. The four men, "singers of superb musicianship and vocal allure," (The New Yorker) give vibrant, modern voice to repertoire ranging from Gregorian chant to cutting-edge compositions. Their dedication to innovative programming, as well as a focus on rare and rediscovered Renaissance and medieval works, has not only earned New York Polyphony two GRAMMY nominations and wide acclaim, but also helped to move early music into the classical mainstream.
